

PRIVACY POLICY

COLLECTION AND USE OF PERSONAL INFORMATION

Personal information is data that can be used to identify or contact a single person.

You are not required to provide the personal information we request; however, without it, we may not be able to provide you with our products or services or respond to your queries.

During checkout, we collect your name, e-mail address, billing address, and credit-card information.

When you contact us, we may collect various pieces of information, including your name, e-mail address, phone number, mailing address, and contact preferences.

From time to time, we may use your personal information to send important notices, such as communications about software updates, your purchases, and changes to our terms, conditions, and policies. Because these notices are vital to your interaction with 8AC Systems, you may not opt out of receiving them.

COLLECTION AND USE OF NON-PERSONAL INFORMATION

Although we also collect data in a form that does not, on its own, permit direct association with any specific individual, because we combine non-personal information with personal information, we treat the combined information as personal information.

During checkout, we collect your Internet Protocol (IP) address and the location of your credit-card issuer for tax purposes.

DISCLOSURE TO THIRD PARTIES

8AC Systems shares personal information with companies who provide services such as information processing, order fulfillment, product delivery, and customer-data management to us. We do not share personal information with third parties for their marketing purposes.

It may be necessary for 8AC Systems to disclose your personal information for legal, law-enforcement, or national-security purposes.
